PROFESSIONAL PROFILE

Finance and operations professional combining management reporting, cash-flow planning, KPI design, cost reduction and business process automation with software development expertise.

CORE SKILLS

Financial analysis • Cash-flow forecasting • Cost modeling • KPI governance • Operational reporting • Excel/VBA • QuickBooks • Process improvement

PROFESSIONAL EXPERIENCE

RAINIER RAPID LLC | Finance Manager | Dec 2025–Present

- Recovered more than $85,000 through payment disputes and reimbursements; identified $3,750 in recurring monthly vendor savings ($45,000 annualized).
- Designed fully burdened labor-cost and route profitability models and a rolling 13-week cash-flow forecast to support staffing and financial decisions.
- Designed and implemented centralized reporting, standardized KPI definitions and calculations across six managers, and eliminated fragmented reporting spreadsheets; reduced personal reporting work from approximately 20 to 2 hours weekly (90%).
- Designed and developed an operational management system integrating Access databases, PowerShell imports, and KPI calculations; continue developing and validating analytics dashboards for managers and ownership.
- Created Excel VBA dispatch roster automation and subsequently rebuilt it in Microsoft Access, reducing a formerly manual 60–90-minute process to under 3 minutes.
- Directed AI-assisted software development by defining requirements, validating outputs, testing workflows, and troubleshooting production issues.

HEALTH FINANCIAL SYSTEMS | Software Developer | Feb 2010–Feb 2015

- Created reusable imports and data-validation workflows for large healthcare financial datasets; optimized SQL queries to improve immediate report availability by approximately 50%.
- Developed and maintained healthcare financial reporting software using C#, ASP.NET, Delphi, VBA, SQL Server, and MySQL.
- Modified Salesforce data structures, queries, code, and customer account/permission functionality; supported application administration.
- Developed database-backed authentication and role-based customer access controls for an ASP.NET/C# healthcare financial reporting platform.
- Developed original features and enhancements for HICARIS/IRIS healthcare reporting applications using C#, ASP.NET, Delphi, Java, HTML, CSS, XML, SQL, and VBA.
- Built adaptive compatibility logic for browser, operating-system, and Excel-version differences; configured virtual machines and tested application compatibility across environments.
- Supported Windows Server, SQL Server, web application, and database configuration; used TFS for version control and completed assigned Asana defects and tasks.
- Documented defect investigations, resolutions, and follow-up in Salesforce CRM.

NORTHWEST GROWN PRODUCTS LLC | Head Grower | Approx. 2019–Aug 2022

- Supervised approximately five employees; coordinated staffing, production planning, inventory, procedures and quality-control improvements.

VISITING ANGELS | Home Care Aide (Part-Time) | 2022–Present

- Provide individualized client support and coordinate with families and care teams.
