MORGAN BRIGGS

APPLICATION DEVELOPMENT | DATABASES & AUTOMATION

Mount Vernon, WA | (916) 793-6597 | Bmorgan8906@gmail.com linkedin.com/in/morgan-briggs-b43a10334 | morgan238-ctrl.github.io/morgan-briggs-portfolio/

PROFESSIONAL PROFILE

Application developer with five years of production healthcare software development across C#/ASP.NET, Delphi, SQL, VBA, integrations, and validated imports. Personally authored the OMS core before ChatGPT and now directs human-governed AI modernization.

CORE SKILLS

C# • ASP.NET • SQL Server • MySQL • Microsoft Access • PowerShell • Excel VBA • Delphi • RBAC • SDLC • Testing • HTTP/API • XML • Git/GitHub

PROFESSIONAL EXPERIENCE

Rainier Rapid LLC | Finance Manager | December 2025 - Present

- Personally authored the original working core of my Operations Management System (OMS) before ChatGPT, including business logic, calculations, automation, and the database foundation. I own the software; Rainier Rapid LLC is a client.
- Develop a local dashboard with SQLite working records, read-only Access refresh, JSON inputs, HTML display data, and staged imports with validation, correction, revalidation, and commit. Installable deployment, OMS role-based permissions, and multi-user synchronization remain in development or planning.
- Created Excel VBA dispatch roster automation and subsequently rebuilt it in Microsoft Access, reducing a formerly manual 60-90-minute process to under 3 minutes; dispatchers verify and adjust final assignments.
- Direct two AI-assisted coding workstreams with integration, independent testing, documentation, project operations, and OMS Development Coordinator support. Define acceptance criteria, manage dependencies, direct defect correction, and retain acceptance and release authority.
- Designed and implemented centralized reporting, standardized KPI definitions and calculations across six managers, and eliminated fragmented reporting spreadsheets; reduced personal reporting work from approximately 20 to 2 hours weekly (90%), based on approximate recurring effort rather than a time study.

Health Financial Systems | Software Developer | February 2010 - February 2015

- One of two HCRIS developers under the lead programmer; developed C#/ASP.NET backend report generation, historical searches and downloads.
- Implemented selected Medicare financial calculations from provided specifications; validated outputs against expected results and sample reports.
- Integrated Excel VBA with Delphi components through a DLL for bidirectional data exchange, calculation execution and validation that blocked invalid imports without opening the desktop UI. Partnered with CEO Becky Dolin to jointly define Excel/API integration requirements from customer feedback; implemented and iteratively refined the tool with her until it met customer needs.
- Added features and customer enhancements to Delphi Medicare desktop cost-reporting software; debugged and fixed defects.
- Optimized SQL queries and databases, increasing the number of reports available for immediate download by approximately 50%.

ADDITIONAL EXPERIENCE

Visiting Angels | Home Care Aide, Part Time | 2022 - Present

Provide individualized client support and communicate with families and care teams.

Northwest Grown Products LLC | Head Grower | Approximately 2019 - August 2022

Supervised approximately five employees; coordinated staffing, production, inventory, procedures, and quality improvements.

EDUCATION

Skagit Valley College - Associate of Science in Data Analysis and Management (in progress). California State University, Sacramento - Computer Science coursework. 90+ college credits toward a bachelor's degree; degree not awarded.
