PROFESSIONAL PROFILE

Business systems analyst and software development professional connecting operational needs with reliable applications, requirements, data and automation. Experienced defining workflows, building systems, testing solutions and supporting stakeholders.

CORE SKILLS

Requirements analysis • Application support • Workflow design • Microsoft Access • SQL • Salesforce • PowerShell • RBAC • Testing • Financial systems

PROFESSIONAL EXPERIENCE

RAINIER RAPID LLC | Finance Manager | Dec 2025–Present

- Built proactive overtime forecasting from recorded hours and estimated assignment duration; designed review triggers and fair route reassignment to support staffing decisions.
- Designed and implemented centralized reporting, standardized KPI definitions and calculations across six managers, and eliminated fragmented reporting spreadsheets; reduced personal reporting work from approximately 20 to 2 hours weekly (90%).
- Created Excel VBA dispatch roster automation and subsequently rebuilt it in Microsoft Access, reducing a formerly manual 60–90-minute process to under 3 minutes.
- Directed AI-assisted software development by defining requirements, validating outputs, testing workflows, and troubleshooting production issues.
- Designed fully burdened labor-cost and route profitability models and a rolling 13-week cash-flow forecast to support staffing and financial decisions.
- Recovered more than $85,000 through payment disputes and reimbursements; identified $3,750 in recurring monthly vendor savings ($45,000 annualized).

Health Financial Systems | Software Developer | Approx. 2010/2011 - February 2015

- One of two HCRIS developers under the lead programmer; developed C#/ASP.NET backend report generation, historical searches and downloads.
- Built database-backed authentication and subscription/facility-based authorization; developed Salesforce customer permissions functionality. Implemented selected Medicare financial calculations from provided specifications; validated outputs against expected results and sample reports.
- Integrated Excel VBA with Delphi components through a DLL for bidirectional data exchange, calculation execution and validation that blocked invalid imports without opening the desktop UI. Partnered with CEO Becky Dolin to jointly define Excel/API integration requirements from customer feedback; implemented and iteratively refined the tool with her until it met customer needs.
- Built large-scale scheduled/manual imports with validation, logging and failure notifications; SQL/database optimization increased reports available for immediate download by approximately 50%.

NORTHWEST GROWN PRODUCTS LLC | Head Grower | Approx. 2019–Aug 2022

- Supervised approximately five employees; coordinated staffing, production planning, inventory, procedures and quality-control improvements.

VISITING ANGELS | Home Care Aide (Part-Time) | 2022–Present

- Provide individualized client support and coordinate with families and care teams.

EDUCATION & PROFESSIONAL DEVELOPMENT

Skagit Valley College — Associate of Science, Data Analysis and Management (in progress). 90+ college credits completed toward a bachelor's degree in Computer Science; degree not yet awarded.

CompTIA Security+, Network+, A+, and Tech+ — preparation in progress; not yet certified.
