PROFESSIONAL PROFILE

Finance and operations professional combining management reporting, cash-flow planning, KPI design, cost reduction and business process automation with software development expertise.

CORE SKILLS

Financial analysis • Cash-flow forecasting • Cost modeling • KPI governance • Operational reporting • Excel/VBA • QuickBooks • Process improvement

PROFESSIONAL EXPERIENCE

RAINIER RAPID LLC | Finance Manager | Dec 2025–Present

- Recovered more than $85,000 through payment disputes and reimbursements; identified $3,750 in recurring monthly vendor savings ($45,000 annualized).
- Modeled overtime exposure using role-appropriate wage assumptions; supported fair route reassignment while distinguishing overtime wages, premium avoidance and verified payroll savings.
- Designed and implemented centralized reporting, standardized KPI definitions and calculations across six managers, and eliminated fragmented reporting spreadsheets; reduced personal reporting work from approximately 20 to 2 hours weekly (90%).
- Designed and developed an operational management system integrating Access databases, PowerShell imports, and KPI calculations; continue developing and validating analytics dashboards for managers and ownership.
- Created Excel VBA dispatch roster automation and subsequently rebuilt it in Microsoft Access, reducing a formerly manual 60–90-minute process to under 3 minutes.
- Directed AI-assisted software development by defining requirements, validating outputs, testing workflows, and troubleshooting production issues.

Health Financial Systems | Software Developer | Approx. 2010/2011 - February 2015

- Optimized SQL queries and databases, increasing the number of reports available for immediate download by approximately 50%.
- Built large-scale scheduled and manual imports using C#, SQL, Delphi and VBA, with validation, logging and failure notifications. Implemented selected Medicare financial calculations from provided specifications; validated outputs against expected results and sample reports.
- Developed SQL Server/MySQL schemas, queries and stored procedures; optimized databases and supported backups, restores and data validation.
- One of two HCRIS developers under the lead programmer; developed C#/ASP.NET backend report generation, historical searches and downloads. Partnered with CEO Becky Dolin to jointly define Excel/API integration requirements from customer feedback; implemented and iteratively refined the tool with her until it met customer needs.

NORTHWEST GROWN PRODUCTS LLC | Head Grower | Approx. 2019–Aug 2022

- Supervised approximately five employees; coordinated staffing, production planning, inventory, procedures and quality-control improvements.

VISITING ANGELS | Home Care Aide (Part-Time) | 2022–Present

- Provide individualized client support and coordinate with families and care teams.

EDUCATION & PROFESSIONAL DEVELOPMENT
